

Who we are...

CSTA is the largest organization for science teachers in Connecticut. As a CSTA member, you have the opportunity to meet, and share information, ideas and interests with other science teachers throughout the state.

CSTA publishes 4 newsletters and 2 issues of the Connecticut Journal of Science Education each year.

We offer professional development, a network for science educators, online resources, and updates about opportunities.

Check us out at

www.csta-us.org

Connecticut Science Teachers Association is a member organization for those who learn, teach and support science in the state of Connecticut.

Our members include science teachers and teachers of science---from elementary teachers to college science faculty. We have members in public schools, private schools and parochial schools. We have members who work in informal science education in science centers and nature centers. We have "friends of science" who join to support all of the rest of our members.

Members are in all stages of their professional life, from pre-service education students, to active professionals, to retirees.

Nearly 500 members strong, CSTA is the voice of science teaching in the state. We are you. We welcome all to join.

*The Mission of CSTA
...to inspire, promote,
and support the learners
and teachers of science
in the state of
Connecticut.*

CSTA serves all who have an interest in the teaching and learning of science in Connecticut by:

- * Promoting effective science education for all learners,
- * Advocating for the science teaching community,
- * Providing opportunities for professional growth, and
- * Building a collaborative

► Why you should join CSTA?

- **Attend the Science Education Conference at reduced cost.**

The conference includes workshops, lectures and seminars, commercial exhibits, networking opportunities, and new ideas for science teaching at all levels.

- **Opportunities**

CSTA sponsors workshops, special interest seminars, field trips, museum visits.

- **Networking for science educators**

CSTA's quarterly newsletter, the biannual Connecticut Journal of Science Education, participation in the CSTA list serve, and the members-only resources of the new CSTA website bring you timely information to improve your science teaching, keeping you connected and informed.

- **Access to "members only" sections of CSTA's website**

Member access to publications, message boards, opportunities, lessons and resources in topical areas, and more.

- **Recognition**

Each year three teachers, one each from elementary schools, middle schools and high schools, are recognized for excellence in science teaching.

Teacher grants and student awards are also presented.
